

The 2009 Europhysics Conference on High Energy Physics

Friday, July 17, 2009

V. QCD at Colliders - Exhibition room A (9:00 AM - 6:00 PM)

time	[id] title	presenter
9:00 AM	[M60] Charmed Meson Production Deep Inelastic Scattering at HERA and Extraction of $F_2(cc\bar{c})$	DAUM, Karin
9:20 AM	[M59] Measurement of charm and beauty in DIS using the H1 Vertex Detector and Combination of $F_2(cc)$	LIPKA, Katerina
9:40 AM	[M91] Heavy flavours in DIS using muon tags at HERA	CORRADI, Massimo Dr CORRADI, massimo
9:55 AM	[M97] Heavy Flavour photoproduction at HERA	SCHOENBERG, Verena
10:30 AM	coffee break	
11:00 AM	[M92] Measurement of the charm fragmentation into D^* mesons at HERA	FANG, Shuangshi
11:15 AM	[M96] Heavy flavour production at LHC	Dr GRELLI, Alessandro
11:40 AM	[M94] Transverse-momentum resummation for gaugino-pair production at hadron colliders	Mr DEBOVE, Jonathan
11:55 AM	[M90] Threshold resummation for the LHC: all order colour structure and application to squark production	SCHWINN, Christian
12:10 PM	[M00] On qualitative aspects of the choice of factorization schemes at NLO	Mr KOLAR, Karel
12:25 PM	lunch break	
2:30 PM	[M48] QCD vs. MC: Drell-Yan p_T distribution	Dr NAGY, Zoltan
2:45 PM	[M74] Three- and Four-jet Production at Low x at HERA	Prof. TURNAU, Jacek
3:00 PM	[M83] Studies of forward jets and production of W,Z within kt factorisation approach	Dr KUTAK, Krzysztof
3:15 PM	[M89] Mini experimental review of low- x at LHC	Mrs OCHESANU, Silvia
4:00 PM	coffee break	
4:30 PM	[M8] Jet-gap-jet events at Tevatron and LHC	Dr ROYON, Christophe
4:45 PM	[M74] Mini review, hard diffraction and CEP at LHC.	Dr BRONA, Grzegorz
5:25 PM	[M93] Diffractive PDFs and factorisation tests at HERA	GARFAGNINI, Alberto
5:45 PM	[M31] Diffractive open charm production from the dipole model analysis	Ms ŁUSZCZAK, Agnieszka
