VII. Unified Theories, Strings, Non-perturbative QFT - Middle Lecture Hall A (9:00 AM - 12:30 PM)

| time | [id] title | presenter |
|----------|--|---------------------------|
| 9:00 AM | [M114] Intermediate mass scales in the non-supersymmetric SO(10) grand unification: a reappraisal | Dr MALINSKY, Michal |
| 9:15 AM | [M49] Neutralino Dark Matter and Collider Signal in an SO(10) model with Two-step Intermediate Scale Symmetry Breaking | Dr PARK, Eun-Kyung |
| 9:30 AM | [M5] Standard(-like) Model from an SO(12) Grand Unified Theory in six-dimensions with S(2) extra-space | Mr NOMURA, Takaaki |
| 9:45 AM | [M40] SUSY GUTs with Yukawa Unification in the light of data | Dr GUADAGNOLI, Diego |
| 10:00 AM | [M03] Selected aspects of recent work in heterotic string phenomenology. | Dr GRAY, James |
| 10:30 AM | coffee break | |
| 11:00 AM | [M9] String Cosmology | Dr ZAGERMANN, Marco |
| 11:30 AM | [M13] Getting 4d physics from open string wavefunctions | Dr CAMARA, Pablo G. |
| 12:00 PM | [M4] Patterns of High energy Massive String Scatterings in the Regge Regime | Prof. LEE, Jen-Chi |
| 12:15 PM | [M8] Construction of the ground state of Matrix Theory: Near the Origin | Dr TRZETRZELEWSKI, Maciej |
