

# The 2009 Europhysics Conference on High Energy Physics

## Friday, July 17, 2009

### IV. Detectors (LHC and R&D) and Accelerators - Small Hall (11:00 AM - 6:20 PM)

time	[id] title	presenter
11:00 AM	[33] The High Level Trigger for Rare Decays at LHCb	Dr VERVINK, Kim
11:15 AM	[398] Commissioning the CMS trigger with cosmic rays	Dr MAKI, Tuula
11:30 AM	[972] The ATLAS Trigger System: Recent Experience and Future Plans	Dr FARRINGTON, Sinead
11:45 AM	[372] The Fast Tracker Architecture for the LHC baseline luminosity	Dr VOLPI, Guido
12:00 PM	[190] Alignment of the ATLAS Inner Detector tracking system	Mr BRANDT, Oleg
12:15 PM	[546] First Alignment of the CMS Tracker and Implications for the First Collision Data	Prof. GRITSAN, Andrei
12:30 PM	lunch break	
2:30 PM	[758] The next energy-frontier accelerator – a linear e+e- collider?	Dr GESCHONKE, Günther
3:10 PM	[756] CERN Upgrade Plans for the LHC and its Injectors	ZIMMERMANN, Frank
3:35 PM	[745] LHeC and eRHIC	Dr LITVINENKO, Vladimir
4:00 PM	coffee break	
4:55 PM	[819] Super KEKB and Belle II	Dr DOLEZAL, Zdenek
5:20 PM	[566] The Intensity Frontier at Fermilab	Dr PREBYS, Eric
5:45 PM	[690] Future neutrino oscillation facilities	Dr EDGECOCK, Rob
6:00 PM	[642] Status of the international Muon ionization cooling experiment	Dr BONESINI, Maurizio
