

The CREDO Blockchain Task

Wednesday, January 17, 2024 5:30 PM (5 minutes)

Are we one step away from tokenizing the CREDO detector?
Will the creation of a micro-payment system using Blockchain technology and rewarding active CREDO app's users with CREDO tokens contribute to the popularization and significant increase in the power of the detector?

Presenter: BATYJEWSKI, Krystian

Session Classification: The CREDO Collaboration Meeting
