

Contribution ID: 47

Type: POSTER

The spatial-temporal variation and transport of artificial radionuclides (^{137}Cs and $^{239,240}\text{Pu}$) around Korea Seas (East Sea, Yellow Sea, Southern coastal of Korea)

Conference topic

Marine radioactivity

Authors: LEE, Hyunmi (Korea Institute Of Ocean Science & Technology); Mrs LEE, Jaeun (Korea Institute Of Ocean Science & Technology)

Co-author: Prof. KIM, Intae (Korea Institute Of Ocean Science & Technology)

Track Classification: Radionuclide impact of nuclear facilities and their decommissioning on the environment
