

Low-background, digital gamma-rays spectrometer with active shield equipped with beta plastic scintillation detector –a system for the simultaneous detection of gamma and beta radiation emitters and cosmic rays

Conference topic

Recent developments in analytical technologies

Author: KIEREPKO, Renata (Institute of Nuclear Physics Polish Academy of Sciences)

Co-authors: WÓJCIK-GARGULA, Anna (Institute of Nuclear Physics Polish Academy of Sciences); MIETELSKI, Jerzy (Instytut Fizyki Jądrowej PAN); Dr GORZKIEWICZ, Krzysztof; BŁAŻEJ, Sylwia (Instytut Fizyki Jądrowej PAN)

Track Classification: Recent developments in analytical technologies
