

M_{bc} and ΔE for Signal and Control channel

1.0 M events for both signal and control channel.

$$B^+ \rightarrow K^+ \tau^- \mu^+$$

$$\tau^- \rightarrow \pi^- \nu_\tau$$

$$B^+ \rightarrow J/\psi K^+$$

$$J/\psi \rightarrow \mu^+ \mu^-$$

For both Signal and Control channel.

$$B^- \rightarrow \text{generic}$$
