

Multiscale phenomena in molecular matter

Tuesday, July 4, 2017

Soft Matter (11:30 AM - 1:40 PM)

-Conveners: Simone Capaccioli

time	[id] title	presenter
11:30 AM	[24] Multi-scale investigation of MgO-based cements by NMR spectroscopy and relaxometry	Dr CALUCCI, Lucia
12:00 PM	[30] Reentrant phenomenon and odd-even effect in homologous binary system of 4-alkyl-4'-cyanobiphenyl (n CB)	Dr YAMAMURA, Yasuhisa
12:30 PM	[60] Helical structure of liquid crystals tested by spectroscopy methods	Mrs TYKARSKA, Marzena
1:00 PM	[48] Scaling of the dielectric response of supercooled disordered phases	Dr GALAZKA, Mirosław
1:20 PM	[30] Cold crystallization and glass transitions in 4CFPB liquid crystal	Dr ROZWADOWSKI, Tomasz
