

XIII Workshop on Particle Correlations and Femtoscopy

Friday, 25 May 2018

Searches for the critical point (16:30 - 18:00)

-Conveners: Máté Csanád

time	[id] title	presenter
16:30	[81] QCD phase-diagram and multiparticle proton correlations	BZDAK, Adam
17:00	[79] Onset of deconfinement and the QCD critical point at SPS energies	RYBICKI, Andrzej
17:30	[80] Deconfinement in proton-proton collisions at LHC energies	SRIVASTAVA, Brijesh

Saturday, 26 May 2018

Searches for the critical point (09:00 - 10:30)

-Conveners: Máté Csanád

time	[id] title	presenter
09:00	[83] Recent lattice results on the QCD phase diagram	GUENTHER, Jana
09:23	[82] Collision energy dependent Lévy HBT results from $\sqrt{s_{NN}} = 19$ to 200 GeV	KINCSES, Daniel
09:46	[85] NA61/SHINE Levy HBT measurements in Be+Be collisions at 150 AGeV/c	PORFY, Barnabas
10:08	[84] PHENIX measurements of low momentum direct photon radiation from large and small systems: Direct photon scaling	KHACHATRYAN, Vladimir
