

FCAL Collaboration Meeting @ Institute of Nuclear Physics Polish Academy of Sciences (IFJ PAN)

Monday 12 April 2010

Session 3. Continuation: Aspects of the luminosity measurement at ILC and CLIC - main auditorium (13:30 - 15:00)

time	[id] title	presenter
13:30	[17] Precision Requirements for the Luminosity Measurement with LumiCal	B. PAWLIK
13:50	[18] An update on systematics at higher ILC energies	I. SMILJANIC
14:10	[19] Simulation of Beam-Beam Background at CLIC	A. SAILER
14:30	[48] The LuminCal Energy Resolution dependence on the angular layer alignment	I. LEVY
14:45	[33] free time for discussion
