OVERVIEW

The meeting is addressed to students and young researchers (up to 7 years after PhD degree) who are interested in solid state physics. The conference is devoted to condensed matter topics concerning structure, dynamics, relaxation, magnetism, acoustics and other properties as probed by various experimental techniques and theoretical tools within a broad range of time- and length-scales.

The conference will involve the following sessions:
1. Soft matter and glass formers.
2. Molecular magnets and nanomagnets.
3. Multifunctional materials.
4. Surfaces and interfaces.
5. Computational physics.
6. Miscellany (biologically oriented systems, defect studies, new ideas, advanced methods,...).

PROGRAMME

Opening lecture by prof. Stephen Blundell (University of Oxford), oral contributions (12min + 3min discussion), flash talks (5min), poster sessions.

IMPORTANT DATES

Start of registration: **March 1, 2021**
Deadline of abstract submission: **May 31, 2021**
Notification of conference schedule: **June 8, 2021**
End of registration: **June 30, 2021**

CONFERENCE FEE

Participation in the conference is free of charge!
